

ART – PENCIL DRAWING

- A view through an open door can make a very interesting composition and is quite challenging.
- Remember the look, sketch and draw rules as usual.
- If you want, you can find interesting examples on google images. The view through the open door can be observational and realistic as you actually see it.
- If you want to create a fantasy view as shown in examples feel free to be creative and imaginative. Stick to the usual A4 size.

Have fun and enjoy. Mr Baird.
