

Geography task

Learn the continents

Follow this link to listen to the song:

<https://www.youtube.com/watch?v=K6DSMZ8b3LE> (note Australia is not the continent, usually called Oceania or Australasia)

- Can you find these continents on a map? Do you know anyone who lives in another continent?
- Maybe you could write a letter/postcard to someone you haven't seen in a while.
- Have you looked on google earth before? You can get a very detailed view of other places in the world.
- Can you spot your own house on google maps? Try to follow the route you would take to get to school or a friend's house.
- Now choose your favourite continent and make a fact file/presentation about it.
